

Take Your Top Off For Safety

Montgomery County Farm Bureau would like you to **Take Your Top Off For Safety**. Stop! Don't take your shirt off. They would rather you take the **top of the corn stalk off just above the ear** of any corn that you have planted at an intersection. Better yet, cut the stalk completely down in both directions for 30 feet. What's more important the \$10.00 worth of corn you would lose or someone life?

Brought to you by Montgomery County Farm Bureau.
